

## RECYCLING can reduce your Household waste by 50%

Collect your **clean, dry** recyclables and take to the Blue Bins located on William Bell Drive (next to the Service New Brunswick Building). Deposit them in the appropriate bin: Corrugated Cardboard, Paper & Boxboard and Plastic, Metal & Milk Containers. Please help us keep the depot sites clean. When items are left outside the blue bins, it is considered illegal dumping, and individuals may be prosecuted. If you see illegal dumping at the Blue Bins please call the Fundy Region Solid Waste Commission at 738-1212.

### **RECYCLING LIST FOR BLUE BINS**

#### ***CORRUGATED CARDBOARD***

Corrugated Cardboard has the wavy piece in the middle, like appliance boxes.

PLEASE FLATTEN ALL BOXES.

#### ***PAPER & BOXBOARD***

Aluminum foil      Frozen food bags

Soft plastic you can crumple in your hand

Cardboard milk, cream & buttermilk cartons

**x No chip bags or styrofoam**

**REMINDER:** Your beverage containers can be returned to a redemption centre, including our local one on William Bell Dr for a cash refund.

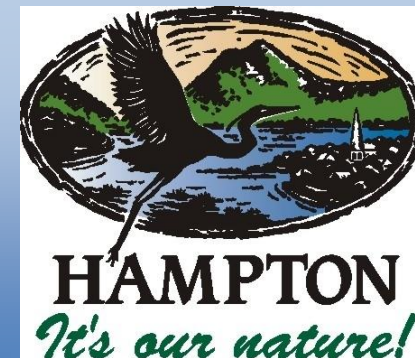

## Household Hazardous Waste and Computer Recycling

Household Hazardous Waste is any harmful substance that is considered corrosive, toxic, flammable, or reactive. Please do not dispose of any hazardous items in your regular garbage or down the drain. Bring them to the Crane Mountain Landfill and they will ensure they are handled correctly. There is no charge to bring Household Hazardous Waste to the landfill. Old computers are accepted at the same time but there is a \$5.00 fee per computer system. They are open every Saturday from 8 a.m. until 12 noon. Fundy Region Solid Waste Commission also hosts Community Round-ups in October.

### **SPECIAL COLLECTION - WHITE GOODS AND BULKY ITEMS**

The Town will provide special collections of "white goods", furniture and other large typical household goods acceptable to the Fundy Region Solid Waste Commission (i.e. appliances such as freezer, dishwasher, refrigerator, stove, wall over, air conditioner, microwave oven, box spring, mattresses, couch, chair, etc).

**You must pre-register for special collection of white goods and bulky items by calling 832-6065.**

**Garbage and Compost pick-up will continue to alternate bi-weekly. Beginning January 1<sup>st</sup>, 2012, your pick up day may change. Please check the street name master list.**

**Please ensure your cart is curbside by 7 am on pick-up day.**

# PUBLIC NOTICE

## Changes to Residential Garbage and Compost Collection

Effective January 1<sup>st</sup>, 2012

### IS THIS NOTICE FOR YOU?

This notice is for residents:

- Living in a house or single-family dwelling or a small apartment building with two units; and
- Receiving daytime curb side garbage and recycling collection from the Town.

This notice is not for:

- Residents living in an apartment building with three or more units; or
- Business/commercial locations.

**HOME-BASED OCCUPATIONS – The Town will only service home-based occupations if the garbage generated from your home occupation can be accommodated in your residential compost and garbage carts. If your business generates more garbage and compost than this, please arrange for commercial pick-up of your waste.**

### CHANGES TO WASTE MANAGEMENT PROGRAM

As of January 1<sup>st</sup>, 2012, the Town of Hampton is taking over residential garbage and compost collection for the municipality.

The Town will be providing residential curbside garbage, compost (including yard waste), oversized items and white goods special collection services. We will also provide collection of litter receptacles throughout the Town.

The Fundy Region Solid Waste Commission will continue to be responsible for the management of all recyclable materials delivered to the Blue Bins located adjacent to the Service New Brunswick Building on William Bell Drive.

The Town will provide each residence with a garbage cart free of charge. The garbage carts will remain the property of the Town of Hampton and are given to you for your use. The cart is similar to your green compost cart (which you will continue to use for compost). **Only garbage placed in the garbage cart will be collected.** The Town encourages residents to compost and recycle in order to keep the amount of garbage down per household.

Compost and Garbage will continue to be collected on alternating weeks. Your compost week will remain the same as it is now, as will your garbage collection week. Your collection day is indicated on the front of this notice.

Compost and Garbage Carts must be curbside no later than 7 am on your scheduled pick-up day. If you have a driveway, place your Compost or Garbage Cart on your driveway; otherwise place either cart at the edge of the sidewalk, blocking as little of the sidewalk as possible. **The cart lid must be closed and the cart positioned so the handle and wheels face the road.** In the winter, do not place carts behind or on top of snow banks. Please make sure they are clearly visible and accessible.

**Residential customers may register for the pick-up of oversized items and/or white goods by calling the Town at 832-6065.**

### COMPOST: WHAT GOES IN YOUR CART?

**Residents can divert up to 40% of their household waste by composting.** Fundy Region Solid Waste Commission provides each property with a green compost cart and small green kitchen bin. **Continue to use this green cart for compost.** If your property does not have a green compost cart or kitchen bin, phone 738-1212.

#### ALL FOOD WASTE (Cooked or raw)

Candy & Gum	Coffee grounds & filters
Breads	Cooking oil, grease & fat
Eggs & shells	Dairy products
