

TOWN OF HAMPTON

BY-LAW # 171-06

A BY-LAW TO AMEND SEWAGE BY-LAW NO. 112-91

The Council of the Town of Hampton under the authority vested in it, by Section 7 of the *Municipalities Act*, amends By-law #112-91 and enacts as follows –

SECTION 2 (a) of By-Law #112-91 is hereby amended by the addition of the following:

“No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof run-off, sub-surface drainage, cooling water or unpolluted industrial water into the sanitary sewer system.

Exceptions may be considered if the property owner has exhausted all other avenues and only upon the approval of the Superintendent of Public Works and/or the Utilities Commission.

No exceptions will be granted without the execution of a ***Perimeter Drain Connection to Town Sanitary Sewer Release*** by the property owner.

Should an exception be granted the owner or his agent shall notify the Commission or its agent when the lateral is to be installed. The lateral is to be left uncovered until the inspection has been made. The Town inspection shall be conducted within twenty-four (24) hours of notification. Any work covered over without an inspection being made shall be uncovered at the owner’s expense.”

SECTION 10 of By-Law #112-91 is hereby amended by the addition of the following:

“(g) There shall be no hook-ups of travel trailers to the sanitary sewer system.”

SECTION 11 of By-law #112-91 is hereby amended by the addition of the following:

“a) The owner or his agent shall notify the Commission or its agent when the lateral and/or building sewer is to be installed. The lateral and/or building sewer are to be left uncovered until the inspection has been made. The Town inspection shall be conducted within twenty-four (24) hours of notification. Any work covered over without an inspection being made shall be uncovered at the owner’s expense.

b) All new building construction shall have an inspection chamber installed at the property line.

c) An inspection chamber shall be installed at the property line of any property, currently without an inspection chamber, at the time of any renovations or repairs involving the lateral and or building sewer to said property.”

SECTION 12 (a) of By-law #112-91 is hereby amended by the addition of the following:

“a) Backwater valves shall be installed on sanitary building drains inside foundation walls on all new building construction and all building renovations regardless of foundation elevation with roadway and installed in accordance with good trade practices.”
